Jon,

The McConkeys are getting a demo permit for the old concrete batch plant at 15th and Thompson. Trip McConkey says you're welcome to come and look at it if you want to use it for training, but he says it's mostly a shack. Trip's cell phone number is (b) (6). He says they will demo in September.

Jon,

If I ruled the world, there would be many more houses demolished in Bremerton. However, I don't know of any more at this time.

Janet will there be anymore locations soon.? We are always training so if you come across more are you able to let me know. Im kind of the liaison for this on the Bremerton side.

Thanks again,

Jon Meador

Jon,

We issued permits for demo for (b) (6), but I don't know if they've started yet; it's a house and a garage. Contact person is Bryan Brown of Edge Construction, (253)261-6096 or bryanb@edge-construction.com. (b) (6) was damaged by a car running into it a year or so ago. The owner just

obtained his demo permit last week. His name is (b) (6), and his phone number is (b) (6). I'm not sure if it's safe, though. Structural damage from the event.

The City is also demolishing the beach house south of the Manette Bridge on the west end ((b) (6)). Contact Tom Knuckey at Public Works, x2376.

Subject: Qustion from SWAT

Janet Im looking for houses or buildings in the Bremerton area that are going to be torn down / destroyed. Our SWAT team is looking for places to conduct breaching training as well as explosive breaching training.

I know the explosive breaching sounds loud however its very controlled with minimal damage.

In addition we would use these places for entry training and such.

If you can help me please let me know.

Thank you,

Officer Jon Meador
Kitsap Co SWAT team member.
